5 FIRST STEPS IN IMOVIE

- Pull your media off of your memory card on to your computer
- Choose your background music first
- Import footage with your desired settings first
- Select the highlights first “Best of the Best”
- Fill in with other footage “Fill in the Rest”

IMOVIE EXPORTING SIMPLIFIED

- Check your export settings (choose High quality for web, not ProRes)
- Export your video to a file (not direct upload to YouTube or Facebook)
- Double check your background music: are you using it legally?
