STEP-BY-STEP BLOG SETUP CHECKLIST

STEP-BY-STEP BLOG SETUP checklist

This checklist includes links to the exact blogging resources I use and recommend! When you make a purchase using my link, I may receive a referral reward, but this does not affect your pricing.

- 1. FIND DOMAIN NAME** I use [NameCheap](#) because of their great prices and customer service. [Watch Tutorial](#) >
- 2. CHOOSE A HOST** [BigScoots](#) offers affordable and robust hosting, plus it's super easy to set up! For absolute beginners, I recommend [NameCheap](#) because it's inexpensive and easy to set up! For more robust hosting from the start, you may decide [SiteGround](#) is the best option as they have a significant new-customer discount. [Watch Tutorial](#) >
- 3. INSTALL WORDPRESS** Install WordPress with your hosting company. Many will install it for you and send you the login details. [Watch Tutorial](#) >
- 4. SETUP WORDPRESS** Complete these basic WordPress setups:
 1. Use the Easy WP Starter Plan on [NameCheap](#)
 2. Select your domain and hit "continue"
 3. Check email for login details
 4. Login with provided username & password
 5. Install PluginsWatch WordPress [Setup Tutorial](#) >
- 5. CUSTOMIZE THEME** Customize the "twenty twenty" WordPress theme that is activated by default. [Watch Tutorial](#) >
